## 2018 Holiday Schedule

Dear Valued Client,

IAL would like to take this opportunity to thank you for your continued business.

Please make note of IAL's Holiday schedule below. This will have an impact on any tests which are considered short holding time (HT). On the next page, you will find a table of the last day we can accept samples with holding time and/or analytical restrictions. As always, please remember that rush turnaround-times are counted for business days, not calendar days.

If you have any questions, please feel free to contact our client service representatives at (973) 361-4252.

Thank you for your continued use of IAL's services.
