INTEGRATED ANALYTICAL LABORATORIES (IAL)
Receives NJ ELAP Certification for Extractable Petroleum Hydrocarbons (EPH)
IAL receives two major certifications in 2010

Randolph, New Jersey – April 20, 2010 – Integrated Analytical Laboratories, a leading environmental and pharmaceutical testing company, announced today that it has received certification from the New Jersey Office of Quality Assurance (OQA) following a successful assessment to perform "*Analysis of Extractable Petroleum Hydrocarbon Compounds (EPH) in Aqueous and Soil/Sediment/Sludge Matrices*" (NJDEP EPH 10/08 Revision 2) (Code SHW06.04530).

IAL was granted accreditation to perform this important environmental test in support of the NJ Site Remediation Reform Act (SRRA), which provides sweeping changes to the way in which sites are remediated in New Jersey.

"We are pleased that our laboratory's compliance with current NJ Quality Assurance requirements has been verified by passing the very rigorous evaluation for this analysis," said Michael H. Leftin, Ph.D., President and Laboratory Director.

"Additionally, with our recent certification as the only laboratory in New Jersey to perform Low Level TO-15 AIR Testing (**LLTO-15**), we are able to provide a more complete and cost effective testing solution to the regulated community and to environmental professionals in New Jersey. "I am pleased to congratulate the entire IAL Team for having achieved this major milestone, which continues to further our Company's mission and corporate philosophy." said Dr. Leftin.

About Integrated Analytical Laboratories:
